Build base, units and upgrades production

For build you must have at least 1 main building: **UAC Command Center** or **Hell Keep**. Press on building icon on control panel to select which building type you need. It start draw circle around cursor. Radius of circle is radius of building. If circle is red - not enough space, if blue - too far from builder, if green - you can start build here. Right click to cancel selection. If icons are disabled, it can mean: there is no one main building, number of buildings of this type reached limit, not enough energy or not satisfied requirements. Destruction one of you builds adds 3 seconds of build cooldown. Maximum build cooldown – 12 seconds.

Unit's icons enabled when there is at least one **Hell Gate** or **UAC Military unit**, army size less than limit, number of this unit less than maximum, enough energy and requirements are satisfied. When you click on unit icon while no one **Hell Gate/UAC Military unit** is selected – unit producing order will send to any idle building. If any **HG/MU** is selected - order will send to selected buildings.

Upgrade's icons enabled when there at least one **Hell Pools** or **UAC Weapon Factory**, enough energy, upgrade research level less than maximum and requirements are satisfied. Most upgrade can be researched in one building at time.

Moving camera

To move camera use arrows buttons on keyboard or middle mouse button. Also, you can move camera with cursor - move it to screen border (this feature must be enabled in **SETTINGS** section in menu). You can change camera scroll speed in **SETTINGS** menu section.

Resources and army limit

There is no gold/wood/minerals/etc. like in other RTS games. There is energy level that means how many productions (producing units/building builds/upgrades researching) at one time you can. Maximum unit count (all units + all buildings!) for each player - 115.

Game settings

Game:
- **DOOM 2** – «*DOOM 2*» mode.
- **UDOOM** – «*The Ultimate DOOM*» mode; there is no additional buildings/units/upgrades and some difference in game balance.

Game mode:
Skirmish - default mode - you must destroy all enemy players;
Two bases - 3x3 – red+orange+yellow vs green+aqua+blue players.
Three bases - 2x2x2 – red+orange vs yellow+green vs aqua+blue players.
Invasion - all players in one team. You need survive for 20 waves of powerful monsters.
Capturing points - there is 6 points on map that needs to capture. Capturing process will be faster if you use many units for this. Point will heal units stay inside.
Royal Battle – like **Skirmish**, but here is circle on map that slowly reduced radius. All units that step out this circle instantly die.

Starting base: buildings at game start;
Show player starts: if "+" game show you players start positions on map.
Fill empty slots: if set, empty player slots will filed with AI players;
Random skirmish: set random map and random game settings.

Units and buildings

Base things for units and buildings
